PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

### SUMMARY

A possible infantry officers candidate school is located (Figure 1) in Chernovtsy (48-17N 025-56E) approximately one kilometer (km) north of Chernovtsy Army Barracks StalingUL, which is also within the city limits.

The installation (Figures 2 and 3) covers approximately 2 acres and is capable of hous-

ing about 1,900 troops. The school area contains one multistory barracks/administration building and two probable support buildings.

The installation was covered by TALENT photography in 1956. KEYHOLE photography between September 1961 and June 1964 reveals no significant changes.

### DESCRIPTION OF INSTALLATION

#### Railroad Service

Although the installation is not directly rail served, the city is served by a northwest-southeast railroad. Within the city one marshalling yard was observed; no repair facilities were noted.

#### Road Service

Several hard-surfaced roads are in the area.

#### Aircraft Landing Strips

Two airfields are near Chernovtsy. One is 2 km southeast and has a sod strip with a

landing area 6,200 by 2,900 feet. Chernovtsy Northwest Airfield is 16 km northwest of the city and has a 6,600- by 20-foot concrete runway.

#### Administration and Troop Housing Area

Area D contains one multistory possible barracks/administration building and two probable support buildings. Troop capacity is 1,900.
